the furniture shop, at 5312 Woodlawn avenue. At first the members of the crowd, contented themselves with shouting for Haas to come out and explain why he had refused to strike. Women and children joined the crowd, until it grew to 1,000, filling streets and alleys in the neighborhood. When Haas failed to appear some of the members of the crowd began throwing stones at the house. Others hurled to the rear, and climbing to the roof, dropped stones down the chimney. Then some one remembered that Gabel, who lives a few doors from Haas, also had refused to walk out, and part of the crowd hurried to his home.

Gabel was at work with the night shift at the shops, and his wife was at home alone. She was in the living room of her home when a stone crashed through a window and rolled across the floor.

**Men Held Before Revolver.**  
Arming herself with a large revolver belonging to her husband, she hurried to the front porch. When she saw the crowd, she called out to them. "You were all my friends once," she announced, "but I'll kill the next one of you who throws a stone."  
Those in the front ranks drew back, while those in the rear began slowly to walk away. For twenty minutes, until arrival of police, Mrs. Gabel stood guard over her home.

In the meantime a pedestrian had turned in a riot call and squads of the Burnside, South Chicago, and Grand Crossing stations were rushed to the scene.

**Girt Held as a Leader.**  
Alexander Girt, 15 years old, 8128 Woodlawn avenue, whose father and brother are said to be among the striking rail employees, was pointed out to them as one of the leaders of the mob, and he was taken to the Woodlawn station. He probably will be turned over to juvenile authorities.

The crowd quickly dispersed upon arrival of the police. Haas was found inside his home with his wife, the doors barricaded with chairs and other furniture and a shotgun and a revolver lying on a table in readiness should the rioters rush the house.

All except three windows in the dwelling had been broken and Haas was nailed boards across the inside for further protection when police arrived.

**VICTIM MAY DIE.**  
The initial outbreak in Chicago came when a new man employed by the Baltimore and Ohio was assaulted and perhaps fatally injured by union agents at Lumber street and the railroad tracks. The victim is John Kasol, 45 years old, 1464 West 48th street, Cicero. With skull fractured and internal injuries, he was taken to the county hospital, where it was said he is not expected to live.

A few minutes later a riot call was turned in from Lumber and 2nd streets, where a clash between strikers and strikebreakers was reported.

A reception committee of strikers met fifteen colored men—part of a group of eighty workers sent from Chicago at Aurora last evening when they reported for work on the Burlington. When questioned, the new men said they had been unaware of the nature of the work for which they had hired out. They were escorted to the city limits, but no violence was attempted. The remaining sixty-five are said to have decamped from Aurora.

after first reporting at the Burlington shops there.

C. D. Peckenspaugh, Burlington division superintendent, denied the men had been imported by the company. There are 1,800 striking shopmen in Aurora. A picket line has been thrown around the shops, where there also are guards protecting the property.

## TROUBLE IN ALABAMA

Montgomery, Ala., July 6.—Reports were received here tonight by the Montgomery Advertiser from Albany that 1,500 striking shopmen doing picketing duty have twenty-five special officers of the Louisville and Nashville road held virtually prisoners inside the railroad property. The sheriff is out of the state. Gov. Kirby will decide tomorrow whether troops shall be sent to the scene. So far as learned there has been no actual violence.

## IN WAITING ATTITUDE

B. M. Jewell, head of the striking shop crafts, was yesterday maintaining the conciliatory attitude he assumed as soon as the strike was under way. He indicated he is open to peace negotiations from any source, regardless of whether it comes from the labor board or the carriers.

"If any one has a proposal for settlement up his sleeve," said President Jewell, "let him shake it out. We are ready to consider any reasonable proposition submitted by any authoritative person or group."

The first report of a sympathetic walkout came from Mr. Jewell. He said J. P. Valentine of Cincinnati, head of the International Molders' union, had wired him that 2,500 molders employed on railroads had been called out. President Jewell also exhibited telegrams from women's auxiliaries of the shopmen's organizations reporting active support in the way of picket duty.

One of these was from Mrs. W. J. Johnson of San Bernardino, Cal., and said, "Our children's future is not safe, and we are going to win."

The shopmen's leader reiterated his contention that the walkout has been virtually 100 per cent strong.

## SURVEY REVEALS CHICAGO PAY OF CAR MEN HIGHEST

BY OSCAR HEWITT.

The difference between the men and management of the surface lines is a proposed wage cut of more than 25 per cent, which means in annual money loss to the workers between \$7,400,000 and \$8,000,000. The employees want the present wage scale an hour continued. That in comparison with the offer of the companies follows:

Period	Company offer	Union demand
First 3 months	55 cts.	70 cts.
Next 6 months	55 cts.	70 cts.
Thereafter	55 cts.	70 cts.

The scales in other cities available, the first three of which are of municipally operated systems, are as follows:

City	First 3 months	Next 6 months	Thereafter
Detroit	55 cts.	55 cts.	55 cts.
Toronto	55 cts.	55 cts.	55 cts.
San Francisco	55 cts.	55 cts.	55 cts.
Buffalo	55 cts.	55 cts.	55 cts.
Cleveland	55 cts.	55 cts.	55 cts.
Philadelphia	55 cts.	55 cts.	55 cts.
Boston	55 cts.	55 cts.	55 cts.
Pittsburgh	55 cts.	55 cts.	55 cts.
Atlanta	55 cts.	55 cts.	55 cts.
Chicago	55 cts.	55 cts.	55 cts.
Louisville	55 cts.	55 cts.	55 cts.
Kansas City	55 cts.	55 cts.	55 cts.
Denver	55 cts.	55 cts.	55 cts.

The last two cities named have a higher rate in the third year. In Kansas City that rate is 55 and in Denver 52 cents.

## Ranges in Other Cities.

A number of other cities divide their wage periods into the first six months and then by years. In New York City there are now several surface line systems. One of these has a scale of 52 cents per hour for the first year, 54 cents for the second, 56 for the third, 57 for the fourth, 58 for the fifth, sixth,

seventh and eighth and 51 cents thereafter.

Milwaukee pays old men 50 cents for the first year, 51 for the second and 54 for the third; but new motor men are paid 45, 47 and 49 cents and conductors 40, 42 and 44.

St. Louis pays 50, 52, 54 and 56 cents for the first, second, third and fourth years.

Minneapolis pays 48, 51, and 53 cents for each of the first three years.

**Scale in Brooklyn.**  
The Brooklyn scale is 45 cents for the first six months, 47 for the second six months, 50 for the third year, 53 for the fourth year, 56 for the fifth year and 59 for the sixth year.

The San Francisco private lines pay 45 cents for the first six months, 48 for the second half year, 48 for the second year, 50 for the third year, and 53 for the fourth year.

Local union officials insist that the maximum wage in Boston is 58 cents, but that was reported to have been reduced last week to 55 cents. In addition, it was announced that the scale on Jan. 1 next will be further reduced to 48 cents for the first three months, 48 for the next nine months, and 51 cents thereafter.

**Subway Scales Higher.**  
The subways in New York, Boston, and Philadelphia pay higher wages than those indicated for surface lines above in these cities.

The Chicago elevated roads pay a maximum, in the second year, of 52 cents to motormen, 71 cents to conductors, and 75 cents to guards.

In New York motormen are paid 52 cents an hour for the first year, 54 cents the second year, 56 cents the third year, 57 cents the fourth, and 58 cents the fifth year. Conductors are

paid 54 cents the first two years and 56 cents the third year.

Tramways in Philadelphia on the elevated and subway lines have a wage scale based upon the first three months, next nine months, and thereafter. Motormen receive 50 1/2 cents, 53 1/2 cents, and 56 1/2 cents; conductors, 57 1/2, 59 1/2, and 60 1/2 cents.

In Boston the wage scale is on the same basis. Rapid Transit motormen receive now 50, 50, and 53 cents, and guards 52, 53, and 54 cents. But an announcement has been made that motormen on Jan. 1 will get 57, 57, and 59 cents, and guards 53, 53, and 54 cents an hour.

## TROLLEY FARES CUT

London, Ont., in Canada, has reduced its street car fare to 5 cents, and a cut to a nickel—with perhaps a 1 cent transfer charge—is expected in Cleveland within six weeks.

The London, Ont., system has started the sale of five trip tickets for 25 cents, but the special rates during rush hours have been eliminated. But that is in a small town under a foreign government.

Cleveland, however, approaches the case of Chicago. John J. Stanley, president of the Cleveland railway, is authority for the forecast in that city. The charge there at present is 8 cents, with an additional charge of 1 cent for a transfer. Mr. Stanley expects that Cleveland will again enjoy a nickel fare soon after Aug. 1.

At that time the interest fund, which is the fare barometer, is expected to reach \$700,000. When that sum is obtained in the fund the fare must be automatically reduced under the franchise.

(Chicago Tribune Foreign News Service.)  
DUBLIN, July 6.—With the hopes of the Dublin irregulars buried in the ruins of O'Connell street, the Irish provisional government's activities will be shifted to the country districts where guerrilla warfare may be carried on for an indefinite period. The irregulars have concentrated in larger numbers in Munster than elsewhere, according to the available information, and it is most likely that this district will be the scene of severe fighting in the immediate future.

More than 400 irregulars have been taken prisoner in Dublin, and at least an equal number have been dispersed, some unquestionably getting away to the hills.

**Thousands Join Army.**  
Thousands of men joined the Free State army today in answer to the government's proclamation which admits "there is a possibility of continued sporadic actions which makes an increase in the army establishment vitally necessary."

Railway lines have been cut, signal towers burned, bridges blown up and tracks blocked at numerous points in the country to hinder the progress of the national troops.

**Battle Over in Dublin.**  
In Dublin the fighting has stopped except for occasional outbursts from a few snipers. Only two were wounded today.

The banks have opened after a week's enforced holiday, and the shops closed their shutters. There was a light mail delivery for the first time in five days. Street cars are operating from the suburbs to within walking distance of the downtown area, but days will be required to get the track and overhead wires. The stock exchange will open on Monday.

Dublin is constantly asking two questions. "Have you joined up yet?" "Where is De Valera?" The republican headquarters thinks he is still in the city.

**New Appeal by De Valera.**  
London, July 6.—(By the Associated Press.)—Eamon de Valera, the republican leader, in a message addressed to the people of the United States, declares the pact between the Irish parties has been torn up, that civil war has broken out, that the British government is not allowed to meet, and that the provisional government has assumed a military dictatorship supported by the British big guns.

**FIGHTING ON THE SHANNON.**  
BIRMINGHAM, July 6.—(By the Associated Press.)—Alarming news has been received from Gerritstown, Shannon County, Ireland. A dispatch to the Belfast Telegraph says that railway bridges and road bridges have been blown up in the vicinity of Carrick, making it impossible for traffic to proceed. A fight for possession of the barracks, which are in the hands of the regulars, has been in progress for days. The shops have been closed for nearly a week and many of the residents have gone to County Sligo.

Republican forces entered the village of Tyrell's Pass, Westmeath, today and made a determined effort to capture the barracks from the Nationalists. They cut all communications, ripped up roads and felled trees making it difficult for the regulars to secure reinforcements from headquarters at Mullingar. The battle lasted for four hours, when the garrison troops drove away the attacking force. The irregulars took up positions in private houses around the barracks, piling up sandbags. Several houses were gutted and the barracks late today showed signs of falling in.

A party of regulars left Mullingar and followed up the irregulars to their headquarters at Tullamore. Unable to enter the town owing to trenches and felled trees, the regulars removed the obstacles and eventually got to the outskirts, where they were fired upon from ambush several times without suffering loss. The regulars proceeded to attack the Tullamore barracks and after an hour's fight dislodged the garrison, taking fifty irregulars prisoner.

**FOOD CONTROL IN CORK.**  
CORK, July 6.—Lord Mayor O'Callaghan of Cork today issued a proclamation stating that a food committee would be organized. At a meeting of local merchants the mayor said: "A sense of want of security has been caused among the traders by the commandeering which has been carried out by the Irish republican army and by raids of an unauthorized character under cover of actual military commandeering. It has been arranged that commandeering for the army will be effected through representatives of the trade concerned."

## 1917 CHANCELLOR

DR. GEORGE MICHAELIS.  
Kaiser's chancellor here for short visit says women are hope of German nation.

## CHILD IDENTIFIES MAN WHO TRIED TO ATTACK HER

Thomas Flynn, 31 years old, 6709 Justine street, was identified at New City station last night by Elizabeth Toppen, 8 years old, 6534 Claremont avenue, as the man who attempted to attack her last Monday night. He was taken to the station last night after he had been rescued by Police William Watts from a crowd at 57th street and Ashland avenue where he had made advances to Mrs. C. M. Golland, 7454 Dorchester avenue, and Miss Cora Jones, 810 Hyde Park boulevard.

The two women were dining in a restaurant when Flynn entered and dropped a note asking them to meet him at 57th street and Ashland avenue. When he left they notified the police, and feeling he might get away went to the place he had named. They asked two men to help him. He was severely beaten before Watts arrived.

A well-dressed man, posing as a gas inspector, who has made two attempts recently to enter the home of P. J. Weiss, 1017 Kimbark avenue, is sought by the police. Weiss' young daughter is at home alone during the day and it is believed the man plans to harm her.

## Mrs. Astor's Auto Blows a Tire; Passenger Killed

(Chicago Tribune Foreign News Service.)  
PARIS, July 6.—Joseph Merillon was killed this afternoon when the automobile of Mrs. Rachel Astor of New York blew a tire on the outskirts of Cherbourg. M. Merillon was rushing from Paris to catch the Olympic. M. Merillon was married to Cornelia Lynch of New York and lived at Nice. Dr. Vitalville of Paris, who was accompanying the party, was seriously injured, while Mrs. Astor suffered minor hurts.

## Penny Road Adds New 22 Hour Train to New York

Announcement was made yesterday by the Pennsylvania railroad that on Sunday, July 16, a new twenty-two hour extra fare train to New York will be added to its schedules. This train will leave Chicago at 8:10 in the evening, arriving at Gotham at 7:10 p. m. the following day. At the same time the Pittsburgh express, leaving Chicago at 8 o'clock p. m., will be taken from the schedules, Pittsburgh and Cleveland sleepers being attached to the New York train.

## MICHAELIS HOLDS WOMEN BULWARK OF NEW GERMANY

Ex-Chancellor Tells of His Nation's Plight.

By JAMES O'DONNELL BENNETT.  
The women of Germany are today the Reich's bulwark against bolshevism, "was one among many significant utterances which former Chancellor Dr. George Michaelis made before a representative gathering of Chicago business men yesterday."

The doctor, one of the last of the imperial German chancellors of the old regime, went on to make a confession of change of heart about woman's suffrage.

"I admit," he said, "that originally I was against woman's suffrage. I always opposed it. I have changed because I see in the German woman—I see in women everywhere—the truest weapon against those forces of destruction and disintegration which we today group under the word bolshevism."

The women keep the families together. They are not readily led away into new and untrodden paths. They are more easily led, more quickly thrown off their balance.

The women are the counterweight against the forces of destruction and disintegration. In their and in their steady standing now working alongside the workmen in day order that they may study at night, lies the hope of the new Germany."

**Given Close Attention.**  
Such words from the man who in 1917 was given the task of steering the German ship of state safely through the demands of a discontented bourgeoisie and a reactionary aristocracy commanded strict attention.

And the confession of the change of heart about suffrage coming from a statesman who, with most of the rest of Germany, long had based his definition of woman's sphere on the emperor's "kitchen, kirk, and kiddies" idealism, convinced his hearers that the old chancellor had come to tell them the truth about Germany.

"Another thing," he continued, "unemployment is the sole source of the peril of an outbreak of bolshevism in Germany. With work there is no danger. There is, however, absolutely no chance for sound economic rehabilitation until the relations between Germany and the rest of the world are put on something approaching a sound economic basis—until, to put it plainly, certain economic clauses in the Versailles treaty are modified."

**Calls It World Matter.**  
"This is a world matter, for there can be no doubt that the world suffers by the present economic conditions in Germany. Representatives of all the great nations should sit down to a real conference to work out plans for the world. They should sit down like men of good sense and good feeling—like good fellows. To such a conference Germany should be received in full membership, and if Germany is there, the first duty of such a conference can be intelligently and profitably taken up. That duty is the stabilization of the mark. Stabilize it, stabilize it, if only at a cent—though I hope it will be better than that—but stabilize it. Make it mean something."

The traveler observing superficially and hastily in Germany today will tell you—and he will think he is telling you honestly—that things look fine. But beneath the surface there is need. Only 18 per cent of our 100,000 university students are living as they should live. The rest are glad to get one meal a day.

"Yes, the pessimist surveying conditions in Germany today could see all black, but the optimist finds hope in the reawakened spirit of the people. History shows, gentlemen, that the biggest men were never produced when my country—when any country—was flourishing most, but when that country was as we are now."

**Recalls Former Agency.**  
"It is not to be forgotten that the University of Berlin was founded when Germany was going through her agony under Napoleon. It is as now. Our heavy problems have induced the gift to wake up and work. The students who once swaggered, who cried 'We are the lords of the world' and who were hated by the workmen, are now working with the workmen and the feeling between them is good."

"These will be the leaders of the new Germany—these youths so intent upon the things of the spirit. Youth is Germany's hope. When you are appealed to, I say help these students—these new men of the new Germany."

## KING ON YACHT IN PERIL; STORM SWEEPS BRITAIN

Island Suffers Big Damage by Gale.

By HENRY WALES.  
(Chicago Tribune Foreign News Service.)  
(Copyright 1932, By The Chicago Tribune.)  
LONDON, July 6.—Grave fears were felt for the safety of King George, who was on board the royal yacht, Victoria and Albert, which was lying unprotected in Torquay harbor today when the terrific gale which swept over the British Isles attained its maximum velocity.

The huge waves swept over the yacht. The pitching and tossing of the king from sleeping and he was not able to remain in his bed for more than a couple of hours. A special guard was ordered to patrol around the royal yacht until the wind and waves moderated at about 11 o'clock this morning.

The greatest difficulty was experienced at midnight, when Admiral Beatty and other admirals of the fleet left the royal yacht, where they had been the guests of the king at dinner. The tremendous sea threatened to swamp the small boats which took the guests to their ships.

The cross channel service has been interfered with, while heavy seas sank sailing vessels between the Dover piers today.

## GOVERNOR SMALL ON WAY NORTH FOR VACATION

Gov. Len Small with members of his family left Springfield yesterday for what was reported to be a three weeks' vacation trip in northern Michigan. Some doubt was cast on his plans last night by reports from Springfield that no notice had been given state officials that the governor was leaving the state, but later a dispatch from Peoria announced that the governor and party had passed through there on their way north.

## PAJAMA PARTY OF DR. ROSE TO WIN WIFE A DIVORCE

Entertained Woman in Their Home, Charge.

Details of interrupted pajama party in which Dr. Charles M. Rose, house physician at the Edgewater Beach hotel and member of the faculty of Rush Medical college, played the role of host, caused Judge Charles A. McDonald to indicate yesterday that he will grant Mrs. Margaret Conner Rose a divorce.

Mrs. Rose gave up her husband's infatuation for another woman on June 24, 1932, when she chanced to pick up the receiver of an extension telephone in their apartment, and listened to Dr. Rose conversing with a woman, later identified as Ferol Fairman, a dancer at a local amusement park.

**Says He Admitted Fondness.**  
"I asked him who she was," said Mrs. Rose, "and after I told him that I had listened to his conversation with her, he admitted she was a woman of whom he was particularly fond."

"He admitted that he often had had her in his apartment during my absence. He told me her name was Ferol Fairman."

The testimony of Hannah Carlson, a domestic employed in the Rose home, corroborated that of Mrs. Rose. Carlson declared that on one occasion she had seen a woman clad in pajamas in the home at 9 o'clock in the morning.

Dr. Rose and a woman, unnamed, were found together in room 212 of the Edgewater Beach hotel at 2 o'clock in the morning of April 3, 1931, according to Robert E. Calkins, hotel superintendent. Both were in extreme negligence and were ordered to dress and leave the hotel, he testified.

**Finds Pair Together.**  
"I was making my rounds," asserted Mr. Calkins, "and when I came to room 212, which was supposed to be occupied by one woman, I heard a noise, and opened the door, to find the woman in a compromising situation with Dr. Rose."

Chicago A. Daily, assistant manager of the Edgewater Beach hotel, corroborated the testimony of Mr. Calkins. The question of alimony for Mrs. Rose was reserved for future decision by Judge McDonald, who awarded her the custody of their five-year-old son.

## GERMANY NEAR COLLAPSE; MAY SHAKE EUROPE

BY RAYMOND FENDRICK.  
(Chicago Tribune Foreign News Service.)  
(Copyright 1932, By The Chicago Tribune.)  
PARIS, July 6.—Germany is on the verge of being engulfed by a social and economic catastrophe which will shake Europe to its very foundations, according to an urgent report which the allies' guarantee committee in Berlin made to the reparations commission today.

The reparations commission held a special meeting here this afternoon to discuss various urgent measures to prevent the complete financial collapse of Germany. The commission is even considering inviting the J. P. Morgan financial committee to sit in Paris soon to act in an advisory capacity. The final decision on this point will be made by the French government. Mr. Morgan is at his summer home in England.

**May Shake All Europe.**  
Marks have broken away from all control, the reparations commission thinks, and their further collapse will be the signal for the stoppage of reparations payments, disaster for the financial and commercial equilibrium of Europe, and confusion of German industry.

The allied governments are tremendously more worried over the economic situation than Germany, which sees an end to reparations payments for some years. Allied observers fully expect a social revolution of a wild character in Germany.

**Want British Coal.**  
The commission also considered Germany's plea for permission to buy more than 1,000,000 tons of coal from England, which was delivered at German ports at 25 shillings per ton (\$3.60). Germans prefer British coal when the price is the same, owing to the superior quality of the latter.

**Even Birth Rate Affected.**  
(Chicago Tribune Foreign News Service.)  
BERLIN, July 6.—While Germany blames almost everything on the unfavorable rate of the mark on the dollar exchange, the Bavarian officials brought a climax to the charges today by declaring that every decline in Germany's birth rate is due to the increase of the dollar's value. They offered statistics to prove their point. Marks are now selling at 400 for a dollar.

## HARDING ASKS G. O. P. HARMONY, LESS U. S. GREED

Columbus, O., July 6.—President Harding in an address here tonight made a vigorous appeal for harmony in the ranks of the Republican party. Too many who profess to be Republicans, he declared, are attempting to "attract attention to themselves" instead of working for the good of their party and country.

The President said he did not care to be a "solist," but that some one had to act as director, otherwise there would be no harmony.

He spoke at an open air banquet which celebrated the fiftieth anniversary of the Columbus Republican Club, of which he tonight was made a life member.

Prefacing his remarks with the observation that a glee club never would sing in harmony if the tenors insisted on receiving special attention because they were tenors, and the basses did likewise, Mr. Harding de-

clared it would be impossible to preserve party harmony if individuals and groups in the party took the same "slant on things."

Several hundred men and women, most of them actively identified with the Republican party, heard the President's address. He reminded them that the party is sponsor for the government today, and added that "we would be better off if all who wear the badge were Republicans at heart."

"You seldom stop to think of the inheritance of the present administration," declared the executive, adding that he meant to take no "fling at what went before."

Inherited Huge Debt.

"But there was a naturalness of expenditure," he continued, "with some nations spending to bankruptcy and the United States to madness. Out of that great upheaval must come a readjustment, but it seems as if no one wants a readjustment for himself, although he is eager to have it for others."

The President was loudly applauded when he referred to the accomplishments of the recent armament conference.

"This nation," he added, "has helped to establish a brotherhood of nations, and we ought to bring the spirit of that brotherhood a little more to the front in the United States."

The President reiterated his declaration

ation, made on July 4 at Marion, that this nation cannot tolerate group or class domination through force. There can be no domination, he said tonight, but the will of the people as expressed in the laws of this country.

"If law cannot be maintained," the President continued, "then the republic itself is menaced."

Mr. Harding said it was consoling to realize that the great undercurrent of American life was in a forward direction and that "nothing in the world can stop it."

Coal Problem Awaits Him.

With the return of President Harding to Washington Saturday night another attempt will be made by the administration to use its good offices in assisting the miners and operators to settle this bituminous coal strike.

Behind the next effort the "peaceful persuasion" by President Harding lies federal intervention of some kind. This was intimated last Saturday by Mr. Harding when he addressed representatives of the miners and operators. A member of the presidential party was the authority today for the statement that the administration is convinced settlement cannot be made along lines of the central competitive field. This may mean that upon his return to Washington Mr. Harding may propose regional conferences for fixing new wage scales.

## C. E. FORD WILL LEAVE \$810,000 ESTATE TO KIN

The will of the late Charles E. Ford, formerly one of the principal stockholders in the Kenwood National bank, disposing of an estate valued at \$810,000, was filed for probate yesterday before Assistant Probate Judge William Holander.

Under terms of the will the widow, Mrs. Jennie Scott Ford, 4623 Drexel boulevard, will receive a cash bequest of \$150,000 and the residue of the estate will be placed in trust. Mrs. Ford will receive title to the Drexel boulevard home.

A \$100,000 fund known as the "Mrs. Joseph S. Wilson fund," is established for the benefit of Mrs. Wilson, a daughter of Mr. Ford, who will be paid an income of \$4,000 annually so long as she lives with her husband.

Eugene E. Ford, eldest son of Mr. Ford, is given \$50,000 outright, \$25,000 in three years, and \$25,000 in ten years. Edwin Ford, the youngest son, will receive \$100,000 in five annual payments.

## "SMILING HARRY" MOREY'S JINX STAYS WITH HIM

"Smiling Harry" Morey, policeman, 2818 Hermitage avenue, is in the hospital again with a broken leg. It is only one of several casualties he has suffered on duty. He was struck by an automobile driven by Don Flint, 842 Gundersen avenue, Oak Park, while regulating traffic at Broadway and Irving Park boulevard last night.

"Smiling Harry" has for years operated as a policeman under an "unlucky star." Always he has had hazardous jobs. Once he had an arm broken while stopping a runaway. Again both legs were fractured on motorcycle duty. More recently he has been on regular police duty.

Not long ago while working out of north side station, he says, he must have arrested some one who had a "drag." For about three weeks, despite his years of hard service, despite his "bad" legs—result of the motorcycle accident—he was put on traffic duty at the corner where he was hurt.

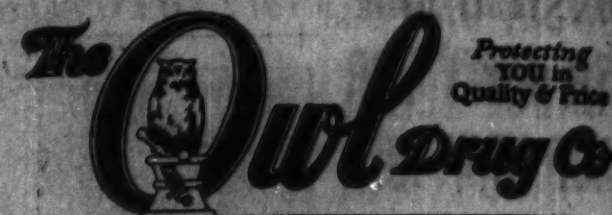

## SENTENCE 11 RUSSIA CHURCH CHIEFS TO DEATH

MOSCOW, July 6.—(By the Associated Press.)—Eleven persons, including the Petrograd metropolitan, Benjamin, have been sentenced to death by the Petrograd revolutionary tribunal for interfering with the seizure of church treasures. Fifty-three others have been sentenced to various terms of imprisonment. Twenty-two were acquitted.

The trial lasted more than three weeks. Among others sentenced to death are Bishop Benedict, Archbishop Sergius and the canons of Kasan, St. Isaac and Troitsky cathedrals, Petrograd's three largest churches.

British Worried Over Air Service, Parliament Told

## LADIES DAY

## The Cubs TODAY—at Cubs Park

Met a man the other day, a man who has spent many years in conducting a ball club, and his first query was:

"What's the big idea? You're spending a lot of money to get the women to come to Cubs Ball Park on Friday and then you let them in for nothing? Who's going to pay salaries if you not only give free admissions but spend good money advertising the fact?"

"Baseball is the national game, isn't it?" he was asked.

"Sure," was his answer.

"Well, how are you going to have a national game if the women don't know all about it?"

That's the idea. If you canvassed one hundred men a majority of them would tell you that baseball was the great national game.

Now the Chicago National League Ball Club is anxious to have the women of Chicago know so much about baseball that they will agree with their husbands, sons and sweethearts—that baseball IS the great national game.

Another great instructive, interesting game at Cubs Park today—Killefer's hustling young Cubs and Mitchell's fighting Braves.

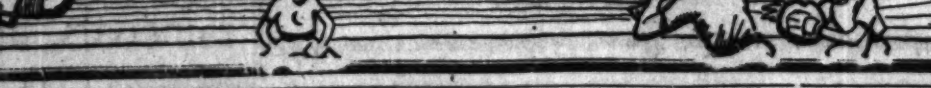

NO ADMISSION CHARGED FOR THE WOMEN OF CHICAGO

The game will start at 3 o'clock at Cubs Park.

### How to Get There

FROM SOUTH SIDE—  
Take any through route elevated train to Addison St. Station.

FROM WEST SIDE—  
Take East-bound car to Clark St. transfer at Clark, and take Clark car to Addison St. entrance.

THE HAGUE, July 6.—The Russian delegation will submit to the allied and neutral delegates tomorrow a list of nearly 600 concessions which will be offered in exchange for \$1,500,000,000 in credits.

The concessions, including rich oil fields, mines, forests, and industries, will be leased for a period of years, but ultimately they will revert to the state. In granting the concessions the bolsheviks stress the necessity of paying a specific minimum wage to the workers. "Other conditions being equal, the previous owners will receive preference," the bolshevik spokesman said.

As a condition to the bargain some of the allied and neutral delegates will insist that the holders of the concessions be given the right to issue industrial money instead of rubles to pay the workers.

**Reveals Soviets' Plans.**  
M. Sokolnikoff, the minister of finance, in an interview with newspaper men today, gave the first official intimation that the Russians intend to restore for a period of years the property of foreigners where practical. He asserted, however, that M. Krasin's estimates that 80 per cent would be restored was greatly exaggerated.

M. Krasin, who brought the latest debt and private property offer from Moscow, arrived today from London, where he told Sir Robert Horne, chancellor of the exchequer, that unless a general agreement was reached here Russia would negotiate separate agreements with private interests.

### BUDGET CRUMPLES

BY EDWIN HULLINGER.  
[Chicago Tribune Foreign News Service.]  
[Copyright: 1922: By The Chicago Tribune.]  
THE HAGUE, July 6.—Russia's tentative budget continued to crumble today under the scrutiny of the allied experts. From the bewildering confusion of ciphers, as one expert styled it, "jumbled together with little system or coherence," the examiners believe they have extracted several startling features.

The first budget figures seem to show that the Kremlin's actual income from taxes and revenues do not defray more than 10 per cent of the administration's expenditures. In other words the government actually is running behind 90 per cent, reckoned as a business man totals up his yearly balance. Sixty-two per cent of the balance is made up by drawing upon the government's gold reserve—following a principle of living upon the capital which is regarded as fatal in the business world.

The sale of "gold, platinum, precious stones and other treasures," which some experts think sounds suspiciously like confiscated church treasures, furnish another 10 per cent, while the issue of paper money fills the remaining gap.

### Held in Stabbing

### 3 GIRLS AND 2 MEN HELD IN MOONSHINE FRAY

Three women and two men were being held last night at the town hall station as the aftermath of an all night cabaret tour which ended in the rooms of the men and resulted in the stabbing of one of the men by one of the women.

The three women gave their names as Florence Lloyd, 2713 Tremont avenue; Helen McInerney, 1712 West 22d street; and Natalie Wiese, 936 Windsor avenue. The men are James Delaney, 25 years old, and William Harding, 37 years old, who live in a rooming house at 4643 Broadway.

Members of the party were arrested when they took Delaney to the Lake View hospital suffering from knife wounds in the palm of his hand and on his forehead, said to have been inflicted by the Lloyd woman during a fight. These two are being held for investigation. Their three companions are booked for disorderly conduct.

## FUMES PERIL 150 IN DEEPEST PART OF N. Y. SUBWAY

Poison Gas Generated by  
Fire Extinguisher.

New York, July 6.—[Special.]—About 150 passengers on a ten car Jerome avenue express train were partially asphyxiated today when gas swept through the train, stalled by a short circuit in the Lexington avenue subway, about 100 feet below the street and just north of 59th street.

Although ninety were reported by the police as receiving medical attention, only two of the twenty who remained in hospitals tonight were in serious condition.

**Deadly Gas Generated.**  
According to charges by Mayor Hylan, fire department officials and other city officials, the gas—either carbon dioxide or the deadly war fume, phosgene—was generated when passengers tried to extinguish an electric arc caused by the short circuit with fire extinguishers.

Frank Hedley, president of the Interborough, denied this, while the transit commissioners, blaming smoke for the asphyxiation of the passengers, added that this "possibly was augmented" by the chemicals. The actual fire damage was estimated at \$100.

Upon orders of the mayor, who visited the subway and emerged coughing violently, four city departments were directed to make a thorough investigation, especially of the charge that extinguishers had produced the gas. The Interborough promptly set about its own inquiry and the transit commissioners did likewise.

**Effect Was Instantaneous.**  
Whatever the cause of the gas, its effect upon the 200 passengers on the Jerome avenue express was instantaneous. While the passengers struggled in the darkened tunnel and in the cars, their only light coming from the flickering flare of the flames in the motor-man's cab of the fifth car, the heavy pall of rolling black smoke was impregnated with the gas. Scores dropped, later to be carried to safety by the firemen or the reserves of three stations.

Others, gasping for breath, made their way to the emergency exits and were helped up the iron ladder to the street.

### STATE WITNESS IN BIG 3 TRIAL FREED ON WRIT

Thomas Hogan, 4003 Belmont avenue, one of the 175 witnesses summoned by the state to testify in the murder trial of Fred "Frenchy" Mader, Timothy "Big Tim" Murphy, Cornelius "Con" Shea, and others was released yesterday on a writ of habeas corpus issued by Judge Harry A. Lewis.

Special Prosecutor Elwood Godman said Hogan was sought when it was believed that he had knowledge of the murder of Acting Police Lieutenant Terrence Lyons, whose death resulted in the indictment of the labor leaders. Hogan is said to have fled from Chicago and was arrested Wednesday when he returned.

Examination of veniemen will be continued today.

### MEXICAN COURT GETS STATMENT FROM BIELASKI

Mexico City, July 6.—[By Associated Press.]—Federal statements in writing dealing with the recent kidnapping of A. ### Boy's Death in Elevator an Accident, Jury Finds

Accidental death was the verdict returned by a coroner's jury yesterday in the death of 13 year old George Kriho, 1600 South Union avenue, whose mangled body was found at the bottom of the elevator shaft in a building at 1505 South Halsted street Wednesday. Sergt. Richard Korman of Maxwell street police is searching for possible companions of the Kriho boy, among them being John Baltrinas, 15 years old, 1807 South Halsted street, a runaway boy.

### U. S. Dry Agent Killed in Raiding Illicit Still

Nashville, Tenn., July 6.—H. J. Lynch, federal prohibition officer, was shot and instantly killed by Finlay Young of Gainesboro, Tenn., today following a raid on an illicit still located upon the property of Young, according to federal officers here.

### CHICAGO DOCTOR, SHOT AS PEORIA TERRORIST, DYING

Peoria, Ill., July 6.—A mysterious stranger was shot yesterday by a deputy sheriff while terrorizing residents of a suburb with a shotgun was today identified as Dr. E. P. Lareach, 60, of Chicago, a former lawyer and member of the queen's bench in England.

At the hospital, where he is not expected to recover, he gave the name of Josiah Wilkins. He is a graduate of Rush Medical college, Chicago. He was adjudged insane ten years ago.

## RUMOR OF PEACE IN ILLINOIS MINE STRIKE DENIED

Farrington and Aids Will  
Go to Washington.

Springfield, Ill., July 6.—Rumors that President Frank Farrington of the Illinois United Mine Workers and his executive committee were entertaining suggestions that the Illinois miners enter negotiations with the Illinois operators independently of the other states in the central competitive field were denied tonight by Farrington.

President Farrington stated he and the executive committee were in conference today on matters connected with the coal meeting called at Washington by President Harding, and that no question of a separate agreement for Illinois had been broached.

The Illinois policy committee, composed of Farrington, Walter Nesbit, secretary-treasurer, and Harry Fishwick, second vice president, will leave Saturday for Washington.

**Fail to Agree, Meet Again Today.**  
Washington, D. C., July 6.—A prolonged session between anthracite coal mine operators and union representatives called to Washington by President Harding to consider methods of getting work resumed broke up tonight without definite results being accomplished, but with an agreement on the part of participants to meet again at 2 p. m. tomorrow. No statements were given in behalf of either operators or union officials.

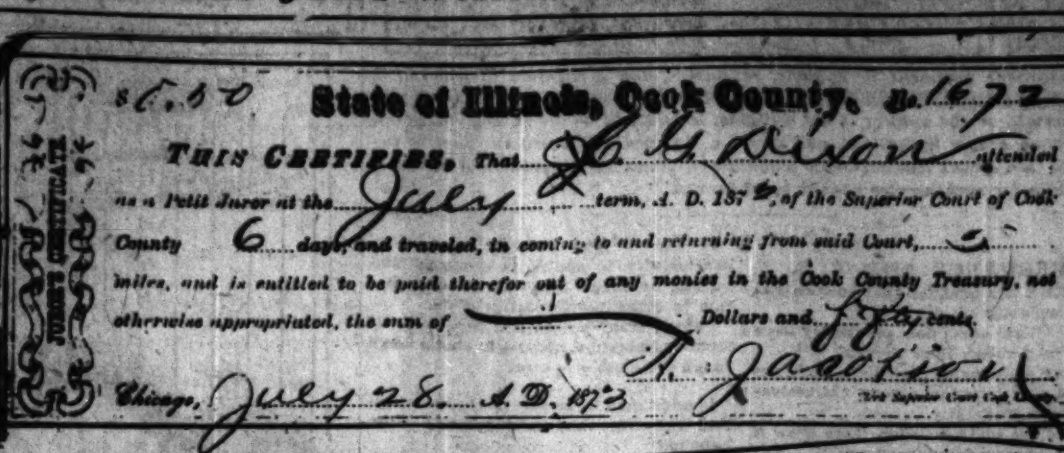

**Congress Gets Data on Costs.**  
In transmitting to congress data relative to investment and profits in the bituminous coal mining industry, the federal trade commission today points out the desirability of obtaining current information as to the cost of producing coal. The data furnished congress today is supplemental to a preliminary report made public a few weeks ago.

"In transmitting the attached explanatory and statistical material supporting the preliminary report, of this commission on investments and profit in soft coal mining, 1914-1921, which was forwarded to you on May 31, 1922, the commission desires to point out its current usefulness in a consideration of bituminous coal prices," says a letter accompanying the data.

## Seven Steel Girders Fall 13 Floors; No One Hurt

Seven steel girders being hoisted to the twentieth floor of the Illinois Merchants Bank building, under construction at Jackson boulevard and Quincy street, fell into Quincy street from the thirteenth floor yesterday when a cable holding the derrick gin pole snapped. No one was injured, as there was no traffic through the street at that time. Three men directing the operation escaped.

The United States of \$3.12 a ton and a range with respect to comparatively important districts from less than \$1 a ton to \$5 or \$9 and over a ton. From a few of the larger districts for specific illustration, the average investment is found to be \$4.26 a ton in the southwest Pennsylvania district; \$3.04 a ton in the central Pennsylvania district; \$2.46 a ton in the Kanawha (W. Va.) district; \$2.21 per ton in the Kentucky No. 1 district; \$1.84 a ton in the Illinois No. 3 district; \$2.16 a ton in the Ohio No. 8 district; \$1.44 a ton in the Indiana No. 1 district; \$1.19 a ton in the Chesapeake-Crawford (Kaa) district; \$4.79 a ton in the Colorado domestic district, and \$3.32 a ton in the Utah district.

## LLOYD GEORGE'S CABINET RUNS ON TARIFF REEF

LONDON, July 6.—The proposed tariff on German glove fabrics threatens to create a cabinet crisis as a result of Prime Minister Lloyd George's statement to a Lancashire deputation, which was introduced by Lord Derby. The Lancashire men protested against the threatened tax of 25 per cent on importations.

Germany obtains fine yarns for the manufacture of gloves from Lancashire, which booms that trade, but which arouses bitter protests from English glove fabric makers.

Stanley Baldwin, president of the board of trade, is reported to be ready to resign if the matter is reopened as Mr. Lloyd George promised the Derby deputation.

With Mr. Baldwin threatening to quit, Home Secretary Short, the target of an unrelenting press campaign demanding his resignation, and Lord Curzon (too ill to resume his place at the foreign office, it is expected that a new shuffle of the cabinet ministers is imminent and this may provide an opportunity for a renewal of the assaults on the prime minister.

## MUSICAL COMEDY STAR BRIDE OF ARTIST ENRIGHT

New York, July 6.—This is the wedding day of Miss Carroll McConas, musical comedy star. Her friends learned of her nuptial plans only yesterday, when she and Walter J. Enright, a newspaper artist, obtained a license.

Miss McConas is not going on a honeymoon immediately nor is she to retire from the stage. She said with a smile: "Probably marriage will mean that I will do better work on the stage than I have done before."

Mr. Enright was divorced at Reno two years ago by Maginel Wright Enright, also an artist.

## Find Bodies of Boys Drowned by Tipping Raft

The bodies of William Bartolucci, 16, 611 South Bishop street, and Anton Cimoloni, 16, of 2054 Polk street, drowned Tuesday in the "old Stinking clayhole," near West 78th street and South 69th avenue, were recovered last night by Constable B. B. Reich of Willow Springs. The boys were drowned when a raft capsized.

### AVOID A CAR STRIKE.

Strike ballots have been ordered and a vote upon the strike issue is to be held by the street car employees next Monday. It may or may not mean a strike. If it does mean a strike, what will be the result?

First, some 2,000,000 persons in Chicago will be put to immediate and serious inconvenience. Loss of time and extra expense in obtaining special means of transportation will follow immediately for every person thus involved. Disturbance of business activities and additional loss of money for the entire city will also follow. The car men will be temporarily without income, and the surface lines and the city treasury will lose. Eventually the strike will be settled. That is certain.

Why not avoid such inconvenience, distress, and loss of time and money by reaching an agreement which will prevent a strike instead of stopping it after it has accomplished such damage?

The agreement between the men and the companies has expired. President Blair of the Surface Lines has told the men the recent reduction of fares to 7 cents necessitates a reduction of 25 per cent in wages if the companies are to keep out of bankruptcy. The officials of the union have rejected his proposal and countered with a demand for a continuation of the present scale. The companies have refused this demand, while offering arbitration, and a deadlock has been reached. Negotiations appear to be suspended while the unions prepare to take a strike vote and follow it up if they deem it advisable with a strike.

It is a sorry outlook for all concerned, including the vast number of Chicagoans who are dependent upon the street cars for necessary daily transportation. Both sides to the controversy should be willing to prevent such hardship by renewing negotiations. It is folly to go into this battle with the certainty that the outcome can be nothing more than a settlement which might be reached without the struggle. Unless negotiations are renewed and accepted to prevent a strike, both sides, on the side responsible, will lose more by unanimous public disapproval than they can possibly win by any victory of might over right.

### PEACE IS BETTER THAN WAR.

Chairman Hooper of the labor board has replied to the head of the shop crafts in a tone which must leave a good impression on the general public. It is in contrast to that of Mr. Jewell, who permitted himself the usual accusatory style of such utterances. Doubtless a certain amount of war medicine must be expected from any leader who heads a strike, to keep his men in fighting mood; but where there is a great body on the side line, by no means uninterested, whose opinion is an important factor in the situation, it is foolish to make violent charges which the average man will not credit.

When Mr. Jewell says the labor board has allowed itself to be used as an instrument of attack against the national organization of labor and talks of "involuntary servitude" and a "nation-wide campaign to reduce living," etc., he is talking labor politics and propaganda, acceptable to those who wish to believe and ignored by those who do not. The mass of onlookers are not much impressed. They are interested in demonstrable facts.

Mr. Jewell says the labor board failed to follow the law which requires that the board take into consideration "wages paid for similar kinds of work in other industries" and "the relation between wages and the cost of living." He cites the minimum rate of 23 cents per hour and the average for all section hands of \$2.75 cents, but to this charge Chairman Hooper makes answer, pointing out that the 23 cent rate affects only 6,702 men of a total of 200,000, all in the southwest, where living conditions are simple and below the average of the country.

But the public is not going very far into complicated arithmetic. We think it will assume that the labor board has tried to do its duty by all concerned. Perhaps the decision did not give exactly the right rate for every shopman; the board is fallible, railroad executives are fallible, labor leaders are fallible. The question the public is interested in is whether the labor board decision was so far wrong, was so unjust, as to justify a strike on a great public service. Life is compromise. Most of us have to make compromises in all our affairs. Most of us think we get less than our desert in many matters of concern to us. So we want to know very much more clearly than Mr. Jewell makes out that his unions were justified in their refusal to accept the labor board's ruling and in their resort to a walkout at a time when any additional economic burdens are especially hard for the country to bear.

We hope Chairman Hooper's line of thought will impress Mr. Jewell and his followers and that they will reconsider their course of action and save themselves and the country the expense of strike conditions. If there is a campaign, as labor leaders assert, for breaking up industries, the ill-considered action of Mr. Jewell's federated unions would assist, not hinder it. If there is such a campaign the labor board is too formidable an ally for labor to give up.

Mr. Jewell and his followers have made a mistake, but it is not too late to retrieve it. Peace is obtain-

### ITALY IN THE TRIBUNE CONTEST.

Upon its own initiative the Italian ministry of education has taken cognizance of THE TRIBUNE architectural contest and will open the way for Italian architects to compete.

This is naturally gratifying to THE TRIBUNE, but, aside from the benefit which may be hoped from this broadening of the field of competition and the entrance of Italian talent, there is a special significance in this official action. There was a time when the northern attitude toward Italy was a bit condescending. A famous British statesman, Lord Salisbury, illustrated it when he referred to the Latins as a receding rather than an advancing race. There is very little left of that notion among observers of modern Italy today. As a matter of fact, the action of the ministry of education shows an alertness and enterprise, which we like to associate with America but which is also perfectly characteristic of the Italian leadership of today. In science, in invention, in political and economic thought, even in industry, under great natural disadvantages, Italian genius is asserting itself in the first rank.

It was an Italian, not a Yankee, who gave the world wireless communication. In psychology and education Lombroso and Montessori are world names, and if we observe the manner in which Italian statesmanship has met the serious domestic problems created or aggravated by the world war and the breadth and manly with which it is confronting the problem of European restoration, we can have no doubt that Italy in our day is not living in the past, glorious as that was, but is one of the most vigorous contributors to modern civilization and a vital force in human progress.

So far as the architectural contest is concerned, it is interesting to think that Italian architects, bred in the splendid and immortal traditions which sprang from the classic world, from the ages of religious faith and from the renaissance, may contribute a thing of enduring beauty and hence of undying influence to this distant city of the new world. Our domestic architecture has already drawn generously upon Italian sources. Some of the most beautiful private dwellings in the country are Italian in style as well as some of the finest public and semi-public buildings. The Italian campanili have had some notable rebirths in conspicuous achievements of our great architects, and so, if, as we hope, Italian talent acts upon the opportunity which the admirable enterprise of its government has opened to it, certainly the whole contest will be the better for it and a notable success may be won for modern Italian artistic effort.

But we hope still another consequence will follow this exhibition of widespread government policy. France has a great school of architecture and men of conspicuous gifts. English and German and Scandinavian architecture represent characteristics of the highest merit and each makes effective contribution to architectural progress. The Royal Society of Architects of Great Britain is a body of the highest tradition and world-wide prestige which might well give attention to what is in fact an important innovation in the field of architecture, private enterprise and modern city development. THE TRIBUNE contest has already been fixed on the highest plane by the acceptance of the invitation to compete by ten of the foremost architects of the United States. That assurance alone is enough to mark the attempt as worthy of the highest and most authoritative consideration in any country where the art and science of modern architecture is a living and vigorous reality.

### THE AMERICAN LEGION.

The national commander of the American Legion, Col. MacNider, says the President is "sold" on the Legion after his first attendance at a Legion meeting held in Marion Wednesday. We suspect neither the President nor any other intelligent American has to be "sold" on the Legion. There is no organization of citizens in the country from whom a more important service is hoped and confidently expected than the Legion.

If there is anything of which thoughtful Americans are conscious in these days it is the need for influences making for a more cohesive, harmonious, and constructive nationality. We have had evidence enough and too much of disintegrating influences in our political, social, and economic life. Foreign loyalties, possessing all the compelling force upon the human spirit of blood ties and immemorial tradition, are and will remain active among this people drawn from all regions of earth. Social and economic inequities have bred or kept alive, often with too much justification, destructive forces. Impractical theory, political self-interest, the demagogic tendency to which the President called our special attention in his memorable speech at Marion the other day, all of these centrifugal pulls are constantly at work on the structure of national being. It is not wise to make too much of them. We may well look hopefully for the resistance which our national character, conditions, and institutions insure. But what is precious to us in this America we love must be watchfully guarded if it is to be preserved, and what guard is stronger and more dependable than the association of men who offered, in the nation's hour of trial, the last measure of devotion to the cause of the republic?

The influence of the American Legion is barely emerging in our affairs. But it will grow with the years. The Legion, drawn from all communities under the flag and from every condition and walk of life, raises, in the metaphor of the greatest American, a standard to which all patriots may repair. It should be and will be the shining spearpoint of stalwart Americanism. In the heart and brain of which the hope of the republic lives.

### TO THE PICKNICKER.

[Louisville Courier-Journal.]  
Again this year picknickers are strewing their refuse over the countryside near Louisville and otherwise making themselves obnoxious to rural residents. Since no legal agency can be expected to patrol the countryside to see that garbage and papers are disposed of and that private grounds are left unblemished, an appeal must be made to the picknickers themselves. Will they not see that the remains of their meals, together with boxes and paper wrappings, are disposed before they leave the picnic places? It is very simple to collect what is left over, put it in a bag, and burn it before leaving.

The rural residents have a right to complain of the picknickers' untidy habits. They have even more right to object to the mutilation of flower beds, the uprooting of shrubbery, and the tramping on carefully planted gardens.

As a rule, country residents are very generous about permitting picknics on private grounds. But, considering the abuse to which these grounds are continually subjected, they are naturally becoming tired of welcoming potential vandals. Hospitality sometimes ceases to be a virtue.

How to the Line, let the quip fall where they may.

THE HOPE CREST.  
(For Haas.)

Blessed voices from Haas,  
With curious designs—  
You'll wonder at the index  
Who deigns the slender lines.

This little box of haas  
I found in Maryland,  
And, thinking you would like it,  
I carried it away.

A table spread and dainties,  
Embroidered in haas—  
A loveliness of alien things  
I'm sending you from here.

Our hopes are bound together,  
And I know you'll be true  
Until the day when each no more  
Shall separate us two.

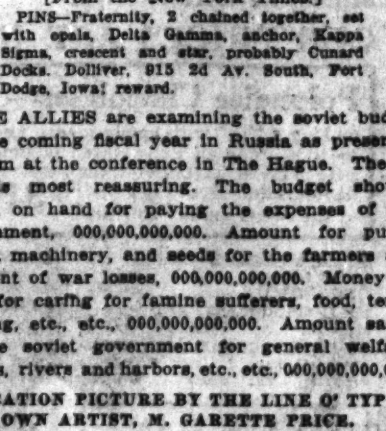

IN WHICH BRUCE BURNS SPEAKS RATHER FRANKLY.  
R. H. L.: Just remember that I draw my pay check from a group who believe in the American Magazine, the Saturday Evening Post, Edgar Guest, and Orion Sweet Marden are sweet harbingers of a swiftly approaching millennium; that life resolves itself into a few elements for which they have worked out perfect and universally applicable philosophy in a hundred words; that the blurbish apothegms of the head of the group dispel forever the darkness which endured until his coming; that a man's "Back to Methuselah" is a colorful work of genius; and that the first someone conveys the lesson of the glory of motherhood; that a well shaped leg, instead of being God's most graceful lyrical note, is to be ignored with iron will; that the process of absorbing the savings of chauffers, chambermaids, ignorant widows, nurses, firemen, cops, and all the infusoria of store and office and shop is a high and noble calling; that John Rockefeller, Charlie Schwab, and Hank Ford are the greatest boys now rampaging among the living of earth; and that if you don't buy what they have to sell, you not only betray a deplorable perverseness and ignorance, but that, by thus spurning their high philosophy, you virtually sin against the Holy Ghost!

Then think of me—and laugh! BRUCE BURNS.

Some time between Sunday night and Monday morning two ferns disappeared from the table and fern stand in front of the Berkland home at 161 North Lockwood. The larger fern was over fifteen years old and its loss is keenly felt. No one but a real thief would do such an act, and for the thief's benefit the plates will be left standing all summer where the ferns have stood for many past summers.

Dear R. Harry: If not eminently inappropriate, may I remark that Bug exterminators are in every way as reprehensible as I induce the untutored insects to drink the deadly brew? Mosquito domesticity is easily taught, but it calls for patience to train the pulchritudinous to stand still and take kindly to forcible feeding.

AFTER an outburst of great patriotic enthusiasm in the chamber of deputies in Paris Wednesday, Premier Poincaré rushed up to former Premier Viviani and kissed him on both cheeks. The news was received in Washington and had a most gratifying effect on the senate. Senator Tom Watson from Georgia was just about to call Senator Phipps a liar, but instead he rushed over and kissed Senator Phipps, who chuckled Senator Watson under the chin and said "Koochee, koochee." Senator Borah gave Senator Johnson a look of his hair and Senator Lodge of Massachusetts sent Senator Underwood of Alabama a box of candy. "A point of order," said Senator Underwood, "I rise to ask why the gentleman from Massachusetts sends me a box of candy." "O," said Senator Lodge, rising and blushing, "Sweets to the sweet."

PHILADELPHIA is much touched at the receipt of the petition, ten miles long, from the school children of the middle west asking that the Liberty Bell be sent to Chicago for the Pageant of Progress.

PHILADELPHIA, we understand, thinks it only fair that at least ten miles of Chicago handle should sign a promise not to steal the bell while it is in our midst.

### How to Keep Well.

By Dr. W. A. Evans.  
Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be generally answered subject to proper limitations, and where a stamped, addressed envelope is enclosed, Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such service cannot be answered.

PREGNANCY AND T. B.  
HERE is a question that doctors discuss a great deal.

What effect does pregnancy have on a tuberculous woman?

And we can assume that the tuberculous woman should be protected by a nurse or even more frequently.

Out of the main question there grow a number of secondary questions. Among these are:

Will the child of a tuberculous mother inherit tuberculosis?

Will it acquire the disease in infancy from its mother?

If it does acquire tuberculosis in infancy is it an advantage or a disadvantage?

Should a tuberculous mother breast feed her baby?

If a tuberculous woman becomes pregnant or if a pregnant woman is found to have tuberculosis should the pregnancy be terminated? Some hold that arguments exist to prove the answers to the first four questions prove that it should be.

But unfortunately termination of the pregnancy does not stop the harm.

Dr. D. A. Stewart has given an answer to this question that is about the best I have seen. It is about as follows:

The rule is that termination of the pregnancy in the last five months is not justified. The rule is against termination during the first four months, but in cases where the rule is not so definite.

There are many exceptions to the rule. Every case should be studied individually to determine whether, in that case, the rule should be followed.

THOSE "FIBRO" KIDNEES.  
W. A. Evans: "I would like to know if there is anything I can do for restlessness at night."

I seem to be well enough, but an hour or two after retiring my limbs seem to get "fibro." From my knees down I cannot keep still. There is no pain, but I just have to keep them moving up and down.

"This sometimes lasts for four or five hours, and then I am just worn out."

Have a good appetite and have no disease of any kind, so can't understand why I cannot be quiet and sleep.

Your trouble is mental, not physical. You must relax yourself in mental rest.

Get Jackson's "Outwitting Our Nerves" or Sadler's "Worry and Nervousness" or some other book and get to work on yourself.

KEROSENE FOR FIDO.

WISHES TO MAKE WILL.  
Lincoln, Ill., July 3.—[To the Legal Friend of the People.]—I am thinking of making a will, leaving all to my wife. If I should do this could my brothers or sisters, after my death, claim any share of my property for themselves? It is necessary to employ an attorney?

Not if you make no mistake. It is nearly always poor economy to dispense with the services of an attorney in such a matter. We would estimate that fees saved on home made wills are exceeded at least 100 times by the cost of litigation, etc., involved in contests of such wills.

TRIBUTE LAW DEPARTMENT.  
NONRESIDENT PROPERTY OWNERS.  
Chicago, July 4.—[To the Legal Friend of the People.]—Can the city or county sue a nonresident property owner for nonpayment of taxes, either regular or special?

1. Can the city compel a nonresident property owner to lay cement sidewalks in front of vacant lots?

2. Or can they sue him if the walks are laid by the city?

1. Yes, if they can reach his person or property, but such course is rarely taken.

2. The city can have work done by special assessment and provide that the assessment shall be a lien upon the property.

TRIBUTE LAW DEPARTMENT.  
INVESTS IN REAL ESTATE.  
Chicago, July 5.—[To the Legal Friend of the People.]—Since investing about \$1,000 in a real estate company I find that I am unable to make further payments. I am under contract and of age. Could you advise if the real estate company is under any obligation to refund part of the money?

1. No. But if you record your contract it will constitute something of a cloud upon the title and it may be that you will ultimately be offered some settlement.

TRIBUTE LAW DEPARTMENT.  
MEMORY TESTS  
Can You Answer These?

Answers to these questions will be published tomorrow.

1. What king of England is said to have been born with a thick head of hair and teeth?

2. How many civil war veterans are now on the United States pension rolls?

3. What was the family name of King George V. before he changed it to Windsor?

4. Who was Susan Brownell Anthony?

5. When and where were the first slaves brought to America?

6. Name the ferryman of the underworld in mythology.

7. In what year was Tolstoy born?

8. What is the coin known as the \$50 gold piece of 1877?

## OPERA COMPANY ADDS HAGEMAN TO CONDUCTORS

After several weeks of silence, the Chicago Civic Opera company made a new spurt of activity yesterday in its plans for the coming season by engaging Richard Hageman as an addition to its staff. Mr. Hageman is taking up his new duties as conductor of the company. He will be known as associate musical director and first conductor of the French repertoire, with a possibility of adding the words Russian, German, and American as its further decorations. Mr. Hageman is well known in Chicago and New York. He was conductor at Ravinia for six successive summers.

(Copyright: Miskin Photo.)

At the time of signing his contract, the management of the Chicago Opera also sent word of several engagements and engagements among the singing artists. Angelo Minghetti, tenor, and Cesare Formichi, baritone, will be new to Chicago and to the United States. Georges Baklanoff, the Russian baritone, has been re-engaged, as have Irene Pavloska, mezzo-soprano, and Mary McCormick, soprano. The subscription department of the company will open Monday, July 10. Between that date and July 22, the guarantors who have made the new company possible will have the privilege of subscribing for seats at a 10 per cent reduction from the ordinary prices.

## \$15,000 IN GEMS STOLEN ON LAKE VESSEL PURITAN

(Picture on back page.)  
Police and insurance officials yesterday began an investigation into the theft of jewelry valued at \$15,000, which disappeared under mysterious circumstances from the stateroom of Mrs. C. M. Lauritzen of 5945 Kenmore avenue, while she and her husband were returning from Ludington, Mich., on the steamer Puritan.

Mr. and Mrs. Lauritzen had boarded the Puritan last night with Eugene McVoy, a tin plate manufacturer at 344 West Austin avenue, at whose home in Pentwater, Mich., they had been staying.

About midnight the Lauritzens retired. Mrs. Lauritzen put her jewelry into a leather bag and hung it on a hook opposite the window overlooking the deck. When the boat docked in the morning Mrs. Lauritzen discovered her loss.

It is believed that some one reached into the window with a pole and lifted the bag from the hook.

Mrs. Lauritzen said she had the jewelry insured for one-half its value.

## TROTTER IN LAKE WITH GIRLS; WIFE KEPT PORCH VIGIL

Accusations Lost Him Job  
in Chicago Mission.

Grand Rapids, Mich., July 6.—(Special.)—How his wife used a pair of binoculars to watch him while he was in bathing at Macatawa park with guests of his rescue mission, was told today by the Rev. Melvin E. Trotter, evangelist, in the trial of the separate maintenance suit filed by Mrs. Lottie M. Trotter.

Trotter said his sister informed him that for some time his wife had been quietly watching him. While he was at his summer home, he testified, a number of women and girls, attendants and workers at the mission, visited him. They went in bathing with him. He said his sister told him how Mrs. Trotter got the glasses and sat on the porch watching him.

"Our Sunday quarrels," he said, "were always caused by Sunday night worship, when attendants would come forward after service to speak to me. She said many women came to the mission not to worship God but to worship me."

Why He Lost Chicago Post.  
Trotter testified that he lost the superintendency of a rescue mission in Chicago last January because of his wife's accusation that he was the father of a baby born to his former secretary, Miss Florence Moody, in July, 1917.

"She frequently threatened to write to the board of directors of the mission about the Moody affair unless I would confess it," Trotter said. "At first she wanted me to confess to one member of the board. I always refused, because a confession would have been a lie."

"Did you speak to Miss Moody about her condition before you spoke to Mrs. Trotter?"

"Yes, I reprimanded Miss Moody for not telling me she was in trouble and not letting us help her. I was afraid the story would ruin the mission."

Warned Him of Girls.

Mrs. Trotter said she had been compelled to caution her husband about his relations with girls of the mission.

"I saw things that would make me angry," she said. The first serious trouble came July 13, 1917, when Mrs. Trotter said, her husband and Miss Moody went to her home and confessed their relationship and the expected birth of the child.

"You must understand that after the birth of the babe you must go your way and that Trotter must return to his mission work," Mrs. Trotter said she told Miss Moody. "I asked what was to be done with the child. I said I wouldn't have anything to do with the affair unless they were going to be fair with the child."

Trotter replied, the witness said: "You can do as you please about that."

Miss Moody, Mrs. Trotter continued, wept on her shoulder and cried, "How can you forgive me?"

## TWO HERMITS FORCED TO QUIT HORSE BOUDOIRS

Evansville hermits may not share their stable boudoirs with horses, health officers decreed yesterday in arresting two aged recluses. It is not conducive to sanitation, they said, as evidenced by numerous complaints from residents.

This contention was borne out when Police Magistrate John F. Boyer or-

dered the courtroom fumigated following the arraignment of the two hermits. The judge said his sympathy was entirely with the horses.

Health Officer R. E. Lindsey made the arrests. He took Charles Holts, 70 years old, from a stable residence at 423 Reeve avenue. Holts was fined \$50, after which he gave his horse to the judge. William Miller, 61, was arrested at 2225 Isabella avenue. His roomers consisted of a horse, two dogs and five kittens. Disposition of his case was postponed.

Evansville police were ordered to round up other stable hermits.

## Liberty Bell Petition Reaches Philadelphia

Philadelphia, July 6.—The monster petition signed by school children in the middle west requesting that the Liberty Bell be sent to Chicago for the Popsant of Progress arrived here today in the care of a committee including three school boys, who acted as a guard of honor. The petition will be presented to the city council.

Some patriotic societies are on record as opposed to the famous relic being taken from the city.

## Chicago, Burlington & Quincy Railroad Will Employ for Its Shops and Roundhouses

Brass Moulders  
Round House Service Men, Stationary Engineers, and Firemen  
Laborers—Coach Cleaners  
Apprentices and Helpers

To commence Monday morning, July 10, 1922. Apply to  
EMPLOYMENT DEPARTMENT,  
Room 206, 547 West Jackson Boulevard.

The United States Railroad Labor Board, under authority of Federal Law, after full hearing to all parties at interest, has fixed present wages for Mechanical Crafts. Certain employees having declined to accept their decision, the Board has directed the railroad to reorganize its forces and has ordered that men who enter our service

"are within their rights in accepting such employment; that they are not strike breakers seeking to impose the arbitrary will of an employer on employees; that they have the moral as well as the legal right to engage in such service of the American public to avoid interruption of indispensable railway transportation; and that they are entitled to the protection of every department and branch of the Government, state and national."

Standard wages and overtime conditions will be paid; hours to be those necessary for maintenance of the service.

Board and lodging, under ample protection, will be furnished.

Young, active men desiring to go into railroad service will be given an opportunity for training in steady, desirable employment.

## Mechanics and Helpers Wanted

On account of the action of a number of our shop and engine house employees, who left the service in defiance of the United States Labor Board, the New York Central is in need of

Machinists and Helpers  
Boiler Makers and Helpers  
Pipe Fitters and Helpers  
Electricians and Helpers  
Tank Repairers and Helpers  
Boiler Washers  
Qualified Car Repair Men and Inspectors

Board and sanitary housing will be furnished, and ample police protection provided at all times.

THE UNITED STATES LABOR BOARD directs that all men taking the place of strikers are to understand they will not be considered strike breakers, and will be protected in their positions and considered as doing a public good.

WAGES: Standard as directed by THE UNITED STATES LABOR BOARD.

Applicants apply at Room 407 La Salle Station, Chicago.

## BARLEYCORN TURNS IN GRAVE; STIRS CAPITAL

President Is Assailed for  
Liquor on Ships.

A STAFF CORRESPONDENT.  
Washington, D. C., July 6.—(Special.)—The liquor question again manifested its refusal to become a dead issue with several interesting developments today.

Senator Cawaway (Ark.), Democrat, calling the sale of liquor on government vessels at sea, charged that the man responsible for the most flagrant violation of the eighteenth amendment and the Volstead act is the President of these United States.

Senator Sterling (S. D.), Republican, member of the radical dries in the senate, proposed an amendment to the Volstead act extending the application of the Volstead act to six marine leagues (eighteen miles) from the coast of the United States.

Hard Time in New York.  
Prohibition Commissioner Haynes admitted that his bureau has its hands full in trying to enforce the Volstead act in New York but blamed the failure of the New York city police to enforce the prohibition law.

"With one stroke of the pen," said Senator Cawaway, "he (President Harding) could close more barrooms than was ever given to one man to go in the history of the world. If he believes in law enforcement he could say to Mr. Laacker 'the bars on American ships must be closed.'"

Again the Republican party has named as the friend and guardian of the Negro. The senate judiciary committee reported out the Dyer bill simply to give Senator Lodge the Negro support.

"They are solicitous of the Negro," said a Negro here in the District of Columbia, inspired no doubt by the example of the President, seemed to ask whisky could be legally possessed on board ship. This inspiration will cost him his \$100,000 extension boat."

## MORON CAUGHT

WALTER LISOVATZ.

Suspected by police of being the moron who outraged several young girls near Douglas park recently, Walter Lisovatz, 25, of 1501 West Twenty-first street, was arrested yesterday on a charge of criminally attacking Stella Waworski, 9, of 342 West Eighteenth place. The girl is in St. Anthony's hospital in a serious condition. Detective Charles Miller and William Simon, who made the arrest, said Lisovatz confessed.

## TROUBLES HEAP ON EVANGELIST SEIZED WITH GIRL

Troubles are multiplying about Capt. William Brooks, alleged evangelist of Chicago, arrested in Urbana, Ill., Sunday in company with a 16-year-old girl. The latest charge against him is that of bigamy. In addition to his wife in Chicago, with whom he lived at 215 North LaCrosse avenue, a woman from Peoria yesterday claimed him as her husband. Urbana police also allege Brooks was married under the names of W. H. Gray and W. H. Harvey.

Capt. Brooks, according to local Volunteer of America officials, was a collector for that organization for a short time, but was discharged six months ago. It is charged he continued to operate in Indiana and Illinois and that his subscription lists reveal he collected considerable sums. Connection with the Volunteers of America has been repudiated by Lieut. Col. Huldah Smith, 221 North LaVergne avenue, who has started an investigation.

## BIDS ON ROADS OF ILLINOIS ARE WITHIN THE LIMIT

Springfield, Ill., July 6.—Bids on approximately 110 miles of paved roads, opened here this morning, seem to be well within the governor's required figure of \$30,000 a mile. Exclusive of cement most bids were running \$19,000 and \$20,000 a mile. Included in the low bids was one for 6.85 miles of road in Cook county for \$131,814.85 by Andrew Ward & Son, Oak Glen.

## Five Aldermen Forsake European Junket Party

Five members of the council streets and alleys committee, which starts next Monday on a European tour with the avowed intention of investigating paving and other municipal activities, have decided not to accompany the committee. Illness of relatives and business affairs are given by the aldermen as their reasons for remaining at home. Those not going are Aldermen Coughlin, Kovarik, Govier, Rutkowski and Piel.

## Ald. Albert Freed of Breaking Parking Rules

Ald. Arthur F. Albert of the Twenty-second ward told Judge F. C. Campbell in the Automobile court yesterday that the charge of violating the parking ordinance lodged against him by Patrolman John Stanton was "just police persecution." Ald. Albert was discharged. His recent attempts to expose grafting among policemen in the Hudson avenue district have caused the police to adopt "petty tactics to weaken my backbone," the alderman said.

# As a Director Mr. Hughes Is a Fine Writer

**"THE WALL FLOWER."**  
Produced by Goldwyn.  
Directed by Norman Hughes.  
Presented at the Pathé.  
THE CAST:  
Helene Hobbes.....Colleen Moore  
Wall Flower.....Richard Dix  
Pamela Shel.....Gertrude Astor  
Pete Nicholson.....Laura La Plante  
Roy Dunham.....Tom Garry  
Pete Larrabee.....Hugh Hughes  
Allen Landers.....Dana Todd  
Mrs. Hobbes.....Fannie French  
Mrs. Nicholson.....Emily Rial

By Mae Tinee.  
Practically precisely the same criticism made in yesterday morning's column must be made in this. Mr. Hughes wrote "The Wall Flower." He should have been contented with writing it (and having it accepted) and have permitted somebody else to direct the picture. He is NOT a good director.

The story is an interesting one. The cast engaged to impersonate the various characters could not have been better picked. But, the moments that should be the biggest, fall pitifully flat. I think it's a shame, myself. The story is of a pathetic child, reared in an atmosphere of nagging and intolerance. She is awkward because she's always been told she's awkward. She's unpretty because nobody has had the sense or taste to see that she is pretty. And, the sad part about it all is, she has a head as well as a heart and realizes she's deficient.

Through the cruellest of practical jokes she finds herself and mother the unexpected guests of a college boy at a prom. She overhears a conversation that reveals the truth to her and starts out blindly to do away with herself. She fails, and, in time, by various means, becomes both a beauty and a personage. How she does is rather vaguely told. Then, a most puzzling love story is all mixed up with her affairs. So far as I could see, it hadn't much reason for being. Certainly the way it comes out leaves you with your tongue hanging out and the expression of one who doesn't understand, never could understand, and never did understand in your eyes.

Goldwyn has seen to it that the lights and shades, etc., are all right. Mr. Hughes has seen to it that "The Wall Flower" registers as mediocre instead of really good.

## CLOSEUPS

The cast of "East Is West," featuring Constance Talmadge, has been completed.

Viola Dana is claimed to be the champion lady sweater knitter of Hollywood. She is on her fifteenth now, and twenty is just the age. Well, knitting is harmless, they say.

The Cecil De Mille have a new adopted daughter. The little one was in an industrial school when discovered. Her father was a Canadian soldier killed at Vimy Ridge. Her mother died soon afterward from grief. This is the second child to be adopted by the De Mille. The other is a 7 year old boy. They also have one daughter of their own, Cecelia.

## Black Chantilly Combined with White Chiffon

by Corinne Lowe

NEW YORK.—[Special Correspondence.]—An avalanche of beaded gowns has descended upon our summer. Steel beads on the white georgette evening frock are a favorite thought with Paris. So are crystal beads. If you don't want to head your crepe or chiffon the first way out is via the lace path. Lace trimmed gowns have enjoyed an increasing popularity this summer and none is more popular than the white combined with black Chantilly or other fine weave. We are showing today a charming

version of this costume in the white chiffon model where the black lace forms the tight under sleeves and a rippling train at the side. This train is really a development of the band of Chantilly set under the bodice, and at the point where it best the corsage is cut away into an inverted V. The girls of black satin terminates in a flower of gold tissue.

Sunday fashion page will be found in the New Color Section.

## BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.  
WORRIED, THE PIMPLES generally speaking are easy enough to remedy because they are the result of allowing material to remain in the pores until they have become blackheads and then fester. So, the trick is to cleanse the skin so thoroughly every night that all deposit is safely removed from the pores. In exaggerated cases of broken out complexion, constipation and poor food and poor circulation is the cause. But the treatment of all face troubles I have included in a little pamphlet which I shall ask you to send a. e. e. for as it is covered therein comprehensively and I know will help you greatly.

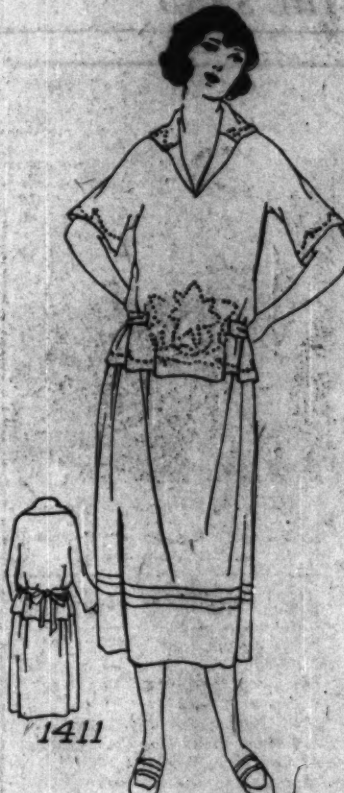

MAY: THE DEPILOYATORY will remove the hairs from arms and legs, but they will return and become coarser with each return. The same is true of shaving the superfluous hair. I think the better thing to do is to bleach them with equal parts of peroxide and ammonia. Apply with a sponge. In time the tendency is to kill the roots. But the bleaching modifies the trouble greatly.

## Doris Blake Says

TODAY YOU SHOULD EXERCISE MENTAL POISE.  
Favorable effects should be produced today with the sun and Neptune in semi-sextile position. The aspects are favorable to business expansion or initiative early in the morning. Be circumspect in all ventures. Exercise supreme effort to maintain mental poise throughout the entire day. If your birthday is today you are warned against useless travel, to guard against slander, to attend your business and home affairs, and to run no risks. The young will court or marry. You have a sensitive nature, easily offended, but very kindly and sympathetic. You are most generous and charitable in your opinions of others, but you are apt to get little in return yourself. Your aims are generally high. You have much curiosity. Your intentions are the best in the world, but you let depression set upon you woefully every now and then. Children born on this day will need discipline in regards to truthfulness and concentration of purpose.

He's Probably Rightful.  
"Dear Miss Blake: I am going to ask you to solve my problem, as you have solved many others. I was introduced to my girl friend's brother quite a while ago. We see each other very often at parties. He always takes me home and tells me how much he cares for me. When I see him with others he acts as though I was a stranger. Do you think he really cares for me or that he is fooling me? He is 17 and I am 16.  
I just think he gets bashful spells when others are around, don't you? I would be a bit surprised but what that explains it.

## A FRIEND IN NEED

BY SALLY JOY BROWN.  
Music Lovers, Attention.  
Have you the address of some one who wants piano and mandolin music? I have two standard exercise books, several good collections of pieces for the piano and some small mandolin books which I would like to pass on. H. D.

Twin Kittens.  
I have two adorable Kittens I would like to find a home for. They are exactly alike and beautifully marked. In fact, they look for all the world as if they had just romped out of a story book. But I want some one to have them who will love them and be kind to them. They may be called for any time during the day, as some one is always home. D. C.

## TRIBUNE COOK BOOK

BY JANE EDDINGTON.

### Lyonnais Potatoes.

Few housekeepers become thorough converts to the use of parsley. Too many chefs use it only as a garnish, which nobody eats. Yet individual sprigs of parsley have a diet value. They contain vitamins. They add flavor. They make for more thrift in cooking than most cooks guess. But each sprig must be thoroughly washed, and too few people know how to wash green things thoroughly—with sufficient inspection. And the parsley must be dried if it is to be served on a salad, or in melted butter over potato, and is best always if so treated.

A little chopped parsley is what makes that vigorous dish which all who cater to men prepare frequently—lyonnais potatoes. This is an excellent labor saving dish, for in boiling potatoes for any service an extra supply can well be cooked with potatoes lyonnais in mind. But you may, of course, boil potatoes just for this, if you want to please some one or get something pleasant for a mealless meal.

Slice or dice one or two onions to go with three to six potatoes and put the onion to cook gently in a tablespoon of butter in a covered frying pan. When cooked, add the potato, either sliced or chopped, and let it cook for about ten minutes with one onion, then add chopped parsley and stir well in. If the mixture is too dry a bit of boiling water or meat stock may be added. Pepper and salt to taste should be added. These may be given omelet form and some cooks fold them and sprinkle parsley over the omelet form after it is on the platter.

Dry chopped parsley, besprinkled over sliced tomatoes, served with a French dressing, adds something worth while artistically and dietetically to a salad.

## POINCARÉ WINS BIG VOTE ON WAR GUILT DEBATE

PARIS, July 6.—[By the Associated Press.]—Premier Poincaré tonight received the support of the chamber of deputies by a vote of 522 to 66. This expression of confidence in the government was given after the close of the debate on the question of "responsibility for the war," initiated by the Communists.

The government selected from the various motions on which expression of the chamber's intense contempt "for the culpable campaign organized for Germany's profit to escape the responsibilities for the war, despite the evidence of facts and the avowal contained in the signed treaty of Versailles and confirmed by the rejections."

This was carried by a majority of 477, after the chamber had voted down the Communist proposal in a committee of inquiry, by a majority of 432.

## ONE CASUALTY MARKS JULY 4; 7 LAST YEAR

Chicago's first 1934 Fourth of July fireworks fatality occurred when Lillian Patrice, 6 years old, 5217 North Elmhurst avenue, died as the result of burns suffered when her clothing was ignited by fireworks, was reported yesterday at the county hospital. An inquest will be held this morning.

Last year seven children were killed by fireworks on July 4, 4 and 5, said William Ott, president of the Chicago safety council, of the Association of Commerce.

"The decrease recorded this year is a definite result of Chicago's ordinance forbidding sale and use of fireworks."

"We did not do so well as fire, however, for there were 194 alarms on July 4 this year, with twenty-three directly traced to fireworks."

## GEN. BELL FEARS WAR IN POLAND WITH U. S. IN IT

MAJ. GEN. George Bell Jr., commanding the Sixth corps area, U. S., said in a speech before several hundred advertising men that he present Polish situation is the growing menace of another war that will draw in the United States. He said that the American Legion, another speaker, pleaded before the audience to again take up arms whenever called upon.

"There never was a time in the history of this country when we needed the services of red blooded Americans more than we do today," Gen. Bell said.

## WOMEN RULE DES PLAINES CAMP TODAY

Today is woman's day at Des Plaines camp. It is expected to be one of the big days of the camp meeting. Women will attend from all sections of Chicago and suburbs. They will dine together under the trees as societies and in groups. It will be the biggest picnic day of the season at the camp.

The morning session will be given to the deaconesses. At 1:30 the Rev. Gilbert Stannell of Wilmette will speak for the Woman's Home Missionary society and at 2 p. m. Mrs. J. C. Denning of India will speak for the Woman's Foreign Missionary society. Mrs. Denning was formerly national president of the Woman's Christian Temperance union of India. In the evening the address will be by Prof. Edmund D. Soper of Northwestern university.

## FINANCE WORLD TURNS WITHOUT A RATTLE

BY O. A. MATHER.

The midweek settlement period, which fell last Saturday, passed with scarcely a ripple in the financial and money markets, although vast disbursements were made and credits shifted accordingly. The main effects, as shown in the weekly statement of the federal reserve system, were increases in loans and note circulation and a decrease in deposits.

The consolidated statement of the twelve federal reserve banks shows loans increased \$29,771,000; bills bought, \$1,005,000, and total bills, \$30,776,000. Government securities declined \$4,000,000. Total earning assets expanded \$24,477,000. Total deposits dropped \$54,574,000, with the member banks' reserve credits declining \$44,000,000. Federal reserve note circulation expanded \$2,570,000. The ratio of total reserves to deposits and federal reserve liabilities combined fell to 75.8 per cent in the preceding week.

The statement of the New York federal reserve bank shows gold and total reserves dropped \$21,139,000 and \$25,440,000 respectively. Loans expanded \$20,000,000; bills bought, \$20,000,000, and total bills, \$21,553,000. Total earning assets expanded \$11,551,000. Total deposits dropped \$22,172,000, with the member banks' reserve credits declining \$22,172,000. Federal reserve note circulation expanded \$2,570,000. The ratio of total reserves to deposits and federal reserve liabilities combined fell to 80.7 per cent in the preceding week.

The statement of the Chicago federal reserve bank shows gold and total reserves expanded \$44,926,000 and \$44,926,000 respectively. Loans increased \$3,290,000; bills bought, \$3,290,000, and total bills, \$4,139,000. Total earning assets expanded \$4,494,000. Total deposits increased \$20,694,000, with the member banks' reserve credits expanding \$20,694,000. Federal reserve note circulation increased \$14,061,000. The ratio of total reserves to deposits and federal reserve liabilities combined rose to 84.7 per cent in the preceding week.

**Pisa Southern Invasion.**  
Chicago banking enterprise is preparing for another "business invasion" of the south. Melvin A. Traylor, president of the First Trust and Savings bank, announced the First Trust Joint Stock Land bank of Dallas, Texas, and is well known throughout the state. Louis K. Boyen, vice president and Chicago manager, and O. K. Dickinson of Dallas, vice president and resident manager, will have charge of the bank's interests in the south.

**Banitory Bonds Bring Good Price.**  
The steady appreciation in bond values was illustrated yesterday in the sale by the sanitary district of Chicago of a block of \$2,000,000, one to twenty year serial 4 per cent bonds at 97.10 cents on the dollar. Three banking syndicates made bids for the issue, and the high and low bids were less than a point apart. The successful syndicate was composed of Ames, Hennrich & Co.; Guaranty company; Marshall Field, Glor, Ward & Co.; Stacy & Braun, and the First National bank of Detroit. The bonds will be offered publicly today at prices to yield from 4.40 to 4.50 per cent, according to maturity.

The strength of the investment demand was again attested by the quick subscription of the two large security offerings of the day, the issue of \$25,000,000 of 10% bonds by the Southern Railway company, and the \$10,000,000 of 10% bonds by the Illinois Central. The latter issue, which was the largest of the year, was subscribed in less than an hour. The success of the offerings was a reflection of the confidence in the future of the country and the stability of the government.

**RAILROAD NOTES**  
The Interstate Commerce commission yesterday found unlawful a proposed rate of \$4.20 per ton on salt, in bulk or in packages, from the Louisiana salt mines to the Gulf of Mexico. The commission's decision was based on the fact that the rate was excessive and discriminatory. The commission also found that the rate was in violation of the Interstate Commerce Act.

The Louisiana salt mines, which are located in the state of Louisiana, have been a source of controversy for many years. The Interstate Commerce commission has been called upon to regulate the rates on salt, and has found that the current rates are excessive and discriminatory. The commission's decision is a landmark one, as it is the first time that the commission has found a rate on salt to be unlawful.

The commission's decision is a landmark one, as it is the first time that the commission has found a rate on salt to be unlawful. The decision is a reflection of the commission's commitment to fair and reasonable rates for all commodities. It is also a reflection of the commission's commitment to the public interest.

### The New York Times.

New York, July 6.—(Special.)—Railroad securities occupied a place of importance in today's transactions on the stock exchange and the pronounced strength which developed in this quarter of the list provided the basis for a forward movement in all classes of stock.

Not in many a day has the exchange had what could be called a distinctly rail market. This developed today, and in sense was unexpected. The market yesterday had failed to register any decided impression regarding the improved labor outlook for the carriers, but there was a feeling that today's market would be a wave of buying which centered on the railroad strikes was meeting with little success.

Nearly All Rail Issues Up.

Now and again the rail issues have come forward to some degree of prominence, but mainly because of speculative enthusiasm and this in a large measure has been centered in the lower priced issues.

Today's upturn was primarily one in which the investment stocks were the chief factors. Such issues as New York Central, Union Pacific, Louisville and Nashville, Atlantic Coast Line, Chicago and Northwestern, Norfolk and Western, and others of similar character, were stirred to new high levels for the year by a wave of buying which centered on the railroad shares. The advances in many instances were surprising. There was scarcely a rail issue on the list which was not ranged around the plus sign at the close of the day.

### Other Issues Advance.

The advance in the rail stocks went hand in hand with an upturn in rail bonds of both investment and speculative type. Trading in the bond market was on a scale which encompassed a wide range of issues, the volume reaching some \$10,000,000. Once again Liberty bonds were in a prominent place, five separate issues reaching new high levels for the year. Of these three made their highest prices since the date of issue.

In the foreign exchange market a decline in marks to a new low level at 21 1/2 cents for the dollar was accompanied by further weakness in French and Belgian francs and lire. The belief is growing that Germany will probably ask for an extension on the next reparations payment and this has acted adversely on the French, Belgian and Italian exchanges.

**B. F. Goodrich.**  
C. C. C. Co.—The B. F. Goodrich company is issuing \$20,000,000 twenty-five year five percent bonds for the purpose of retiring its \$20,000,000 five year 7 percent notes, which are called for payment as a whole on Oct. 1, 1932. These bonds are secured by a first mortgage on all fixed assets and by the pledge of stocks of certain subsidiaries. Earnings available for interest after depreciation, but before taxes, have averaged \$9,418,000 annually for the last eight calendar years, or over seven times the maximum interest charges on the present issue. This period includes 1921, in which year a loss of \$16,221,000 was incurred. For the first six months of 1932, earnings available for interest are reported in excess of three times semi-annual interest charges on this issue. These bonds are redeemable as a whole at 107 and interest on sixty days' notice. They are a business man's investment.

**Brief Answers.**  
C. L. Q. Antigo, Wis.—The bonds listed on the New York stock exchange as "U. S. Mexico 4s" are the external gold 4s of 1904, due 1964. These are dollar bonds, but carry their value in sterling, marks and francs as well.

# Million Dollar Oil Fire in East Chicago—Hundreds of Shopmen Meet—Brokers Visit Camp Algonquin

**GOLDEN LINING TO THESE CLOUDS.** Oil worth a million dollars went up in smoke last night when contents of a battery of high pressure stills burned in the Sinclair Oil

company refinery at East Chicago. A leak in one of the tanks started the fire, officials believe.

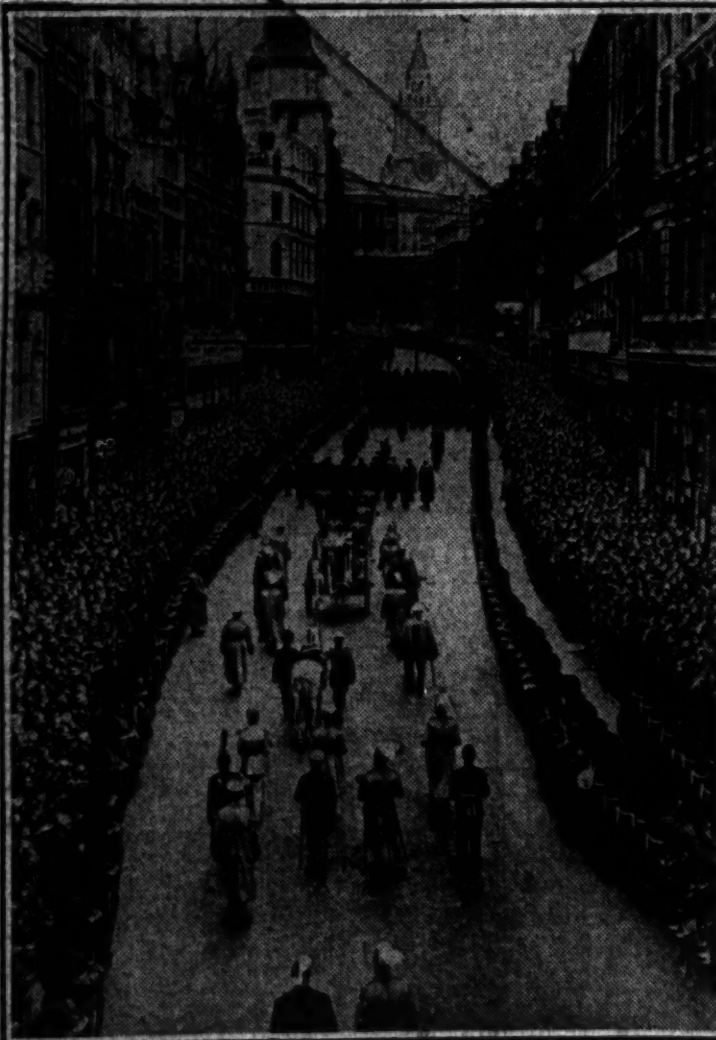

(John F. Schach Photo.)

**BROKERS ON MERCY'S ERRAND.** Some of the members of the Board of Trade are shown above, mobilized for an inspection trip to Camp Algonquin, to the support of

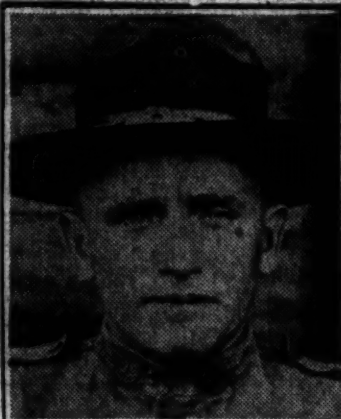

which they are liberal contributors. The camp is maintained, by readers of The Tribune and by semi-civic organizations, for babies and mothers.

(Tribune Photo.)

**HONOR TO SLAIN MARSHAL.** All London watched the funeral cortege of Field Marshal Sir Henry Wilson, victim of recent political assassination.

(Wide World Photo.)

**"SEVEN COME \$33,000."** Sergt. Gustave Reisig won a \$33,000 oil lease at craps.

**SAVED BY HARDING.** President commutes death sentence for dog owned by alien.

(Photogram Photo.)

**GEMS STOLEN.** Mrs. C. M. Lauritzen, 5963 Kenmore, lost \$15,000 worth on lake boat.

(Tribune Photo.)

**HOW'S THIS TECHNIQUE, SHARPSHOOTERS?** Graphic movie picture of how Fred Wright, California amateur, here for the national open golf championship at Skokie, makes one of his beautiful long drives. Is the stance correct

as he makes his approach? Is anything to be desired in the way club meets ball? Do you gather from the smile that Fred

**SHOPMEN TOLD OF GRIEVANCES.** Great crowd of striking railroad men gathered at Madison street and Hamilton avenue to listen to orators from among their officials.

(Tribune Photo.)

Meetings like this are being held daily all over the country while union leaders are conferring on the manner in which the daily strike movements are conducted.

(Tribune Photo.)

**RAIL CONFERENCE GETS RESULTS.** Chairman Ben W. Hooper (left) of the U. S. labor board; D. W. Helt (center), chief of signalmen, and W. L. McMenimen, board member, meet. Signalmen stay at work.

(Tribune Photo.)

**THIS "FLOP HOUSE" FLOPPED.** A four story building at 756 West Adams street, once used as sleeping quarters for homeless, collapses. No one hurt.

**RATHENAU'S MURDER FIRES WORKMEN.** Two hundred thousand Germans wave red flags in protest against assassination of Foreign Minister Rathenau. Crying "Long

live the republic," they are shown near the former Kaiser's monument.
